

G-Coat

„A G-Coat Story“:
premium surface finishes
for car seat panels

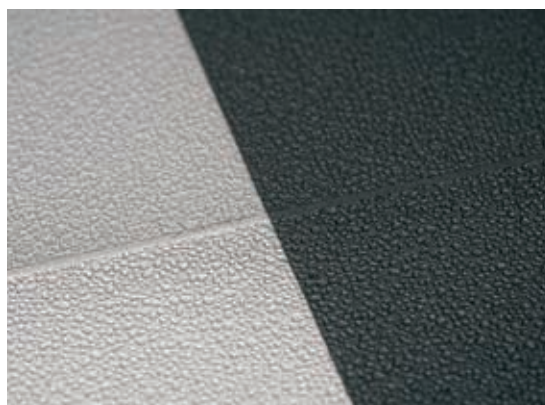

Enhanced using our innovative G-Coat technology:
side panelling for car seats – free of weld lines with
the aid of the right tool coating

- For PP-based and ABS plastics
- Consistent texture mapping laminates weld lines and reduces tiger skin effect and ghosting
- Enhances gloss levels
- Suitable for chemically etched and laser-textured surfaces

Car seat panel without / with G-Coat – lamination of weld lines

Steel: uncoated – coated (anthracite)
